

WELCOME TO THE ADEDU NEWSLETTER

Welcome to the ADEDU newsletter. 30 months, ten webinars, a set of free resources, and hundreds of educators later, the ADEDU project is wrapping up, but the work is far from over.

In this edition, we look back at our webinar series exploring inclusive digital education, from assistive technology to AI tools, and share highlights from our Final Event, where an interactive quiz, a deep dive into Universal Design for Learning, and a well-deserved award for the Cyprus Computer Society made for an afternoon to remember.

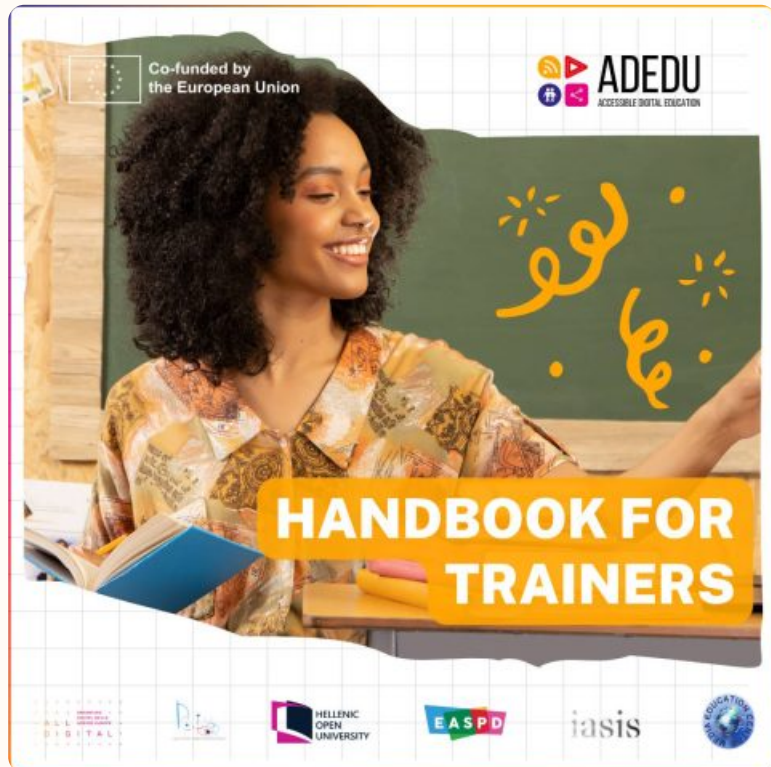

We also want to make sure you leave with everything you need to keep going. The ADEDU course is still open and free, and every resource we have built, from the Guidelines for Educators to the Handbook for Trainers, is yours to download, adapt and use.

ADEDU Final Event: What inclusive digital education looks like in practice

From an interactive quiz testing real classroom scenarios to a deep dive into Universal Design for Learning, the ADEDU Final Event was a hands-on celebration of two years spent making digital education more inclusive for all.

Evaluation report of ADA digital environment

MOOCs like the All Digital Academy Platform are only as powerful as the experience they offer. This evaluation was carried out to identify barriers learners face and make sure the platform is as accessible, intuitive and inclusive as it needs to be.
